Education

University of California, Irvine

Jun 2028

- GPA: 3.87
- B.S. in Computer Science
- Minor in Biological Sciences

Experience

UCI ICS Student Council

AnteaterAPI Project Co-Lead

Oct 2025 – Present

- Lead team of **9** developers in open-source API that provides university data to **40K+** users
- Scale deployments on Cloudflare Workers with **250K+** daily requests from multiple UCI-endorsed web services
- Provide REST and GraphQL endpoints using Hono framework with a PostgreSQL database hosted on AWS

Video Game Development Club

AI v Artists (Game Project)

Oct 2025 – Present

- Collaborate in a **team of 30+** people to create a game about AI's impact on society, with \$3000 in funding from UCI's Undergraduate Research Opportunities Program
- Successfully launched a demo on Itch.io after 2 months of development and presented at VGDC conference
- Implemented a dynamic, branching dialogue system and pipelines to parse writers' script into dialogue and events in Unity

Projects

Natural Selection & Neural Network Sim

Jan 2026 – Apr 2026

- Developed a Unity-based simulation modeling ecological and evolutionary processes
- Built a neural network from the ground up to control organism behavior and trained it using principles of natural selection
- Analyzed simulated time-series data in R and identified trends in population dynamics and trait development.

UCI Schedule Crafter

Jul 2025 – Oct 2025

- Developed a web application using the Shiny framework in R to assist UCI students with class scheduling
- Optimized filtering out schedules with conflicting classes to reduce overall computation time by **40%**
- Visualized weekly calendars by designing customized graphs using R's ggplot2 library

Runetrek - Ranked Top 5% at Mini Game Jam #162

Jul 2024

- Created a WebGL roguelike card game with a dynamic deck and level progression using Unity
- Managed complex battles and rest cycles by implementing a state machine workflow
- Increased game scope and content in a limited time by utilizing Scriptable Objects to contain instance-independent data and drive modular code architecture

Anteater Gym Service - "Best Healthcare Project" at UCI Webjam

Nov 2025

- Led a team of 4 to create a weekly workout planner given the user's time availability and physique
- Built a React-based frontend and deployed via GitHub Pages

Leadership & Work

Foothill High School Marching Band - Wind Captain

Jul 2024 – Nov 2025

- **Led 35 members** in rehearsals and directed **8** less-experienced section leaders
- Organized additional meetings, practice blocks, and performance assessments

TPT (Pleasanton, CA) - Boba Store Shift Leader and Barista

Jun 2023 – Sep 2025

- Led team as most experienced part-time worker in absence of store owner
- Created an internal app to quiz new hires on different drink recipes
- Assisted in the training and hiring process of over two dozen new employees

Skills

Languages: R, Python, SQL, JavaScript, TypeScript, HTML, CSS, C#

Frameworks & Tools: Node.js, React.js, REST APIs, GraphQL, Cloudflare Workers, AWS, Docker

Interests: Music Composition, Piano, 2D Game Art & Animation, Asian Literature, Teas and Coffees
